Attachments: Bradford Island-Managers Meeting Agenda-27Aug20.docx

Chris,

As you can imagine, the saga regarding Bradford Island continues and we are continuing our discussion with the OLEM – Federal Facilities Office regarding the NPL process. I will set up an update briefing for you so that we can get you caught up on the latest activities and also prepare you for a scheduled meeting with USACE Portland District leadership on September 8, 2020.

On a separate, but related track, I am scheduled to participate in a Program Manager check-in with USACE, Ecology, ODEQ, and Yakama Nation today related to Bradford Island. I have attached the meeting agenda as a FYI for you and so my guess is that the other stakeholders will want me to share a status of the NPL listing process as part of our update. The team has prepared a few talking points for me to share, but they will remain high level so that we can provide more details with the USACE leadership on September 8th. I will include any action items or updates from today's meeting as part our updating briefing for you.

In preparation for our updating briefing, if you come up with any questions related to Bradford, please let me know anytime at your convenience.

v/r,

Calvin
